

List of Street Addresses within the Quogue Historic District

Set forth below is a list of the street addresses of all the properties located within the Quogue Historic District. A substantial number of the properties contain several structures, which are identified as contributing or noncontributing.

What is a contributing property? A contributing property is a building, structure, object, or site within the boundaries of the district that adds to the historic associations, historic architectural qualities, or archaeological values for which the historic district is significant. A contributing property must also retain its "integrity." In other words, the property must retain enough of its historic physical features to convey its significance as part of the district. Alterations can damage a property's historic appearance and its integrity.

What is a noncontributing property? Properties that do not contribute to the significance of the district are called "noncontributing properties." These properties may be less than fifty years old, they may be older properties that have been significantly altered, or they may be properties not associated with the historic theme or time period of the district.

Next to each address on the attached list is an annotation indicating whether the structure or structures at that address are contributing or noncontributing structures and the number of contributing and/or noncontributing structures located at that address.

More information about each of the properties located within the Historic District, can be found in the National Register of Historic Places Registration Form used to nominate the Quogue Historic District.

C – Contributing property
NC – Non-Contributing property
V – Vacant land

<u>Street Address</u>	<u>Identification & Structures at Address</u>
1 Anthony Lane	NC (1)
